Who we are >> >

ILIFE is a world-leading manufacturer and innovator that specializes in producing robot vacuums, floor washing machines, wet and dry vacuum cleaners, handheld vacuums, and other superior household cleaning devices.

Established in 2010, ILIFE has grown into a company with over 1000 employees and 300 engineers. Our business has expanded to more than 40 countries, helping millions of families around the world to achieve a clean living environment.

"I-LIFE", which combines the capital letter "I" and the word "LIFE," represents our commitment to enhancing people's lives. With this mission, ILIFE is dedicated to providing more cutting-edge and high-quality cleaning products to help more people worldwide create a cleaner, easier, and smarter life.

MILESTONES

2010

ILIFE launched its first intelligent robot vacuum project in Shenzhen, China.

2012

Pioneered the integration of an infrared eye detection system into a robotic vacuum.

2014

Bringing BLDC fan motors into the field.

2016

Obtained New-Born Brand Awards on amazon.com.

2019

Launched ILIFE A9, the first ILIFE robotic vacuum cleaner with "cellular dustbin".

2021

The A10 laser navigation robotic vacuum has won ILIFE's first Red Dot Design Award.

2011

Enlarged our R&D team by creating a second R&D center in Hong Kong, which now consists of over 100 professionals.

2013

Released lithium-ion batteries to become the industry standard.

2015

Developed a robot that combines vacuuming and mopping functions, and launched it in the Chinese market.

2018

Introduced the world's first floor washing robot.

2020

EASINE, a sub-brand specializing in handheld and cordless stick vacuums, has been established.

2022

Winner of Lazada Annual Best Seller Award.

What Media Say >>

"We've been pleasantly surprised by the Shinebot's performance in our tests, and despite our reluctance to being banned from the bleach we think it actually did a better job than a hand mop."

— **techadvisor**

"...it seems like an attractive consideration for anyone looking for a deal on this line of devices."

— **Tom's Guide**

"The mopping capability is a nice extra that many competitors don't have."

— **TopTenReviews**

"The ILIFE Shinebot W400 floor washing robot must be the best piece of tech I have ever reviewed -- primarily because I hate washing floors."

— **ZDnet**

"Watching the iLife W400 Floor Washing Robot furiously scrubbing away at our floors was certainly enjoyable."

— **Techradar**

"The W400 has better cleaning performance than any alternative on the market."

— **Digital Trends**

RECOGNITIONS >>

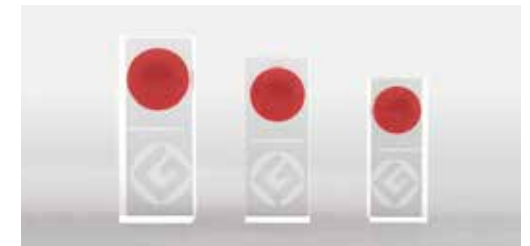

2016 / Best Brand Award of Amazon Global Selling

2017 / IFA Product Technical Innovation Award

2017 / China Good Design Award ILIFE V8s

2022 / Aliexpress / Lazada Best Brand Awards

Global Networks

Sales & Service

ILIFE has established sales networks in over 30 countries and provides after-sales service over seven countries in the US, Europe and Asia.

Manufacture

ILIFE owns an industrial park covering an area of 150,000 m² in Zhongshan, with an annual production capacity of 6 million units.

Research & Development

ILIFE has R&D centers in Shenzhen, Guangzhou and Hong Kong with over 300 employees.

Auto-Empty Robotic Vacuum Cleaner

Key Features:

- Self-Empty Station
- 2.5L Big Dust Bag
- 2-in-1 Vacuum & Mop
- Advanced LDS Navigation
- 3000Pa Max Strong Power
- 150mins Long Runtime
- 250mL dustbin, 240mL water tank
- App, Alexa, Google Assistant

Laser Navigation with SLAM Algorithm

Quickly create accurate maps of your home to find the most efficient cleaning route without missing spots. The 4000/s sampling rate, 32 ft measuring range .

Automatic Dust-Emptying Station

2.5L Dust Bag with Self-Emptying gives you up to 60 days of automatic.

3,000Pa Ultra-Strong Suction

With 4 suction modes option, T10s support up to 3000Pa Max suction power, which can deeply pick up large debris,

Powerful Vacuuming and Mopping Combo

Equipped with 2 in 1 dustbin and water tank, Y-shape mopping pattern swipe stubborn stains easily.

Smart App and Voice Control

Customize your clean in the app to select cleaning modes, clean certain rooms, set a virtual wall, place a no-go zone, and more. It works with Alexa and Google Assistant.

A10s

Smart Laser Navigation and Mapping

reddot winner 2020

Key Features:

- 2900mAh battery
- 100min runtime
- 450mL dustbin
- Multi-floor mapping
- 2-in-1 vacuum and mop
- Laser navigation
- 2000Pa powerful suction
- App & Voice control, Works with Alexa

Precise Laser Navigation and Mapping

360° laser scanning and SLAM algorithm create neat, efficient cleaning routes without missing the edges and corners.

Vibrating water tank patent

Up-and-down vibrating and back-and-forth rubbing work together to imitate hand mopping motion in a high frequency. 3 adjustable water flow levels to loosen and dissolve stubborn stains.

Multiple Floor Mapping with Boundaries

Set specific areas or rooms that need cleaning on ILIFEHOME APP. The multiple floor mapping function allows A10s to remember different cleaning plans that you set for each floor.

Two Side Brushes

Side brushes work with an adjusted brushing rate from 100rpm to 240rpm on different floor conditions.

A11

Mopping and Vacuuming with Laser Navigation

V3s Max

Max-Ultra-thin Vacuum for Cleaning Performance

Advanced LIDAR Technology 2.0

The 3000/s sampling rate and 26 ft measuring range increase mapping efficiency by 50%.

2-in-1 Robot Vacuum and Mop

V3s Max vacuums and mops in one go, it vacuums dirt and pet hairs first, and then mopping the floor, keeps your home clean and tidy.

2-in-1 PLUS One

2-in-1 300mL dustbin and 200mL water tank for vacuum-and-mop, PLUS one separated 450mL dustbin for specific need.

Powerful Suction up to 2000Pa

Spot mode increases suction power to 2000Pa, easily to pick up from small debris to large particles, makes your floor spotless after cleaning.

Powerful suction and battery

4000Pa superb suction and 180min runtime for deep cleaning large space.

Intelligent Path Mode & Gyro Navigation

Applying the advanced gyroscopic navigation system, V3s Max follows a zigzag cleaning path while cleaning your home to avoid inefficient double working, maximizing cleaning efficiency.

New exclusive app ILIFEVAC

Edit map, adjust power level and water level during cleaning. Schedule cleaning and review weekly reports to know you better. APP auto-update available.

Smart App and Voice Control

Get your customizable schedule clean via the app. V3s Max joins your smart home group to work together with Alexa, bringing you a convenient lifestyle.

A80 Pro

2-in-1 Vacuum & Mop with App Control

V80 Max mop

Clean Floors in a Smart and Powerful Way

Intelligent Planned Cleaning

Equipped with the advanced gyroscope, A80 Pro maximizes its cleaning coverage without missing or repeating areas. The intelligent area division also enhances the cleaning efficiency.

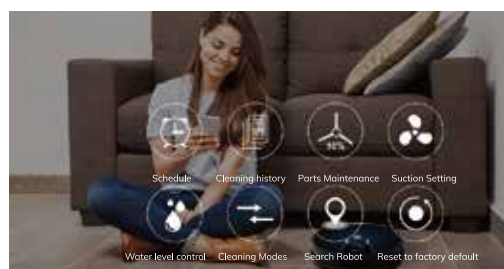

Powerful Suction up to 2000Pa

Effectively pick up trash and debris from floor to low carpets.

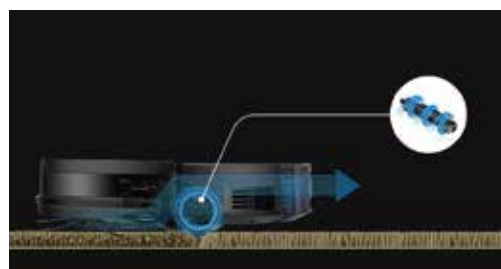

Auto Carpet Boost

The robot automatically increases suction power once detecting the carpets, to remove the dust and debris embedded into them.

Convenient App Control

Use the app to set up cleaning schedules and get data reports; adjust suction and water level; search robot location, and more.

Floating 2-in-1 Roller Brush

The self-adjustable roller brush keeps constant contact with the uneven surface for deep cleaning. The combination of bristle and rubber makes the two great for picking up various trash and easy to clean.

Powerful Suction up to 2000Pa

Effectively picks up trash and debris from both floor and low carpets.

2 in 1 Robot Vacuum and Mop Combo

Effectively remove the dust and stains with the perfect water volume while mopping.

Floating Tangle-Free Suction Nozzle

Stays in constant contact with the surfaces, even the uneven ones, picking up dust, crumbs, debris, and hair without tangling.

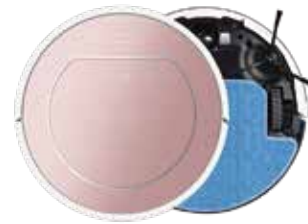

Extra-large Dustbin 750ml

The large capacity of the dustbin reduces the frequency of emptying trash in each cleaning.

V7s Plus

Clean effectively in large spaces

V55 Pro

Integrated Vacuuming and Mopping Robot

2-in-1 Vacuum and Mop

Especially combined dustbin with water tank, V7s Plus can vacuum and mop the floor automatically.

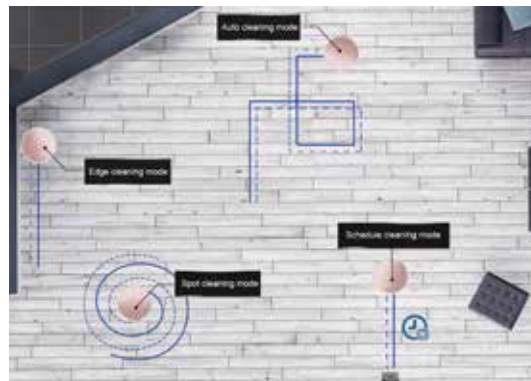

Clean Effectively in Large Spaces

With bigger parts, V7s Plus can vacuum and mop dust, dirt and stains hidden in kitchen and other large spaces more effectively.

OBS All-terrain Detection System

V7s Plus has a whole set of terrain detection sensors, allowing it to complete cleaning tasks autonomously.

Multiple Cleaning Modes

4 cleaning modes are designed to suit different needs: Auto mode for automatic cleaning; Edge mode for corners and edges; Spot mode for specific areas; and schedule mode for preset cleaning.

Planned Zigzag path, Cover the Entire House

V55 Pro plans a cleaning path to minimize repeated or missed spots, ensuring complete coverage of the entire house with maximum cleaning effectiveness.

Electrowall® Clean Designated Zones

The self-adjustable roller brush keeps constant contact with the uneven surface for deep cleaning. The combination of bristle and rubber makes the two great for picking up various trash and easy to clean.

Adjustable suction power

Powered by a brushless motor, V55 Pro cleans quietly with strong suction power. It offers two suction levels where MAX mode can reach up to 1000Pa, handling even the smallest particles.

One scheduling, 7-day workweek

V55 Pro accepts preset schedules 7 days a week in one setting, and executes daily task at scheduled times.

Shinebot W450

Harsh on Stain. Gentle on Floor

Key Features:

- 850ml clean water tank, 900ml dirty water tank
- OBS All-Terrain detection system
- 2 mechanical buttons with visual signifiers
- Real-time voice reporting of work status
- App & Voice control; Works with Alexa
- Supports ILIFE floor cleaning formula

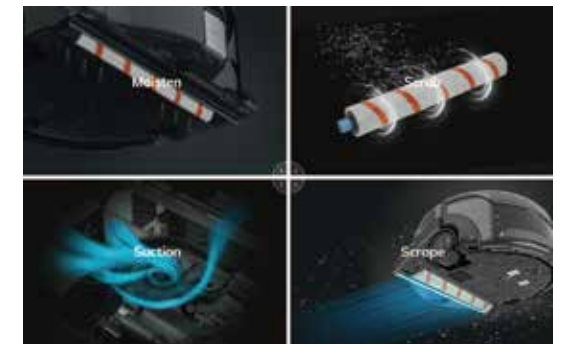

Upgraded Panoview Navigation

Assisted by the CV-SLAM algorithm and built-in gyroscopes, W450 guides itself to navigate the rooms systematically with the panoview visual, enhancing the navigation accuracy and avoids to miss the areas needs cleaning.

Clean Floor in 4 Steps

W450 washes the floor by moistening, scrubbing, suctioning, and scraping. It removes dirty water and wipes off the residues, leaving the floor spotless.

TidalPower Cleaning System

The brand new TidalPower Cleaning System cleans stubborn stains thoroughly while protecting the floor.

Smart App Control via ILIFEHOME APP

Smart app supports cleaning area selection, cleaning plan setup, water volume and roller brush speed adjustments, to meet various cleaning needs.

W150

Ultra Clean, Whisper Quiet

Key Features:

- Low-Consumption adhesion cleaning technology
- Innovated high polymer adhesion cleaning
- Super-Quiet cleaning
- Self-Cleaning with fresh water
- Bigger capacity of water tanks : 1000ml CWT+500ml DWT
- 3000mAh battery work up to 70mins, covering 300m² of areas.
- Intelligent real-time voice assistant
- Cordless, Lightweight, User-Friendly

Low-Consumption Adhesion Cleaning Technology

With new low-consumption adhesion cleaning technology, W150 provides an integrated cleaning solution with strong cleaning ability but lower power consumption and less noise to deeply clean on most hardfloors.

Powerful, Lightweight and User-friendly

W150 adopts the innovative polymer flexible sponge roller to make cleaning wet and dry waste in one go more efficient. It works up to 70mins with 300m² areas. Clean freely thanks to its 3.6kg lightweight and cordless design.

Self-Cleaning with Fresh Water

The separated design of fresh water and dirty water pipeline makes sure the fresh water cleans the roller in real-time while the dirty water is collected separately, reducing the second pollution and refreshing your home.

Whisper-Quiet Cleaning

The polymer flexible cleaning roller of W150 works with 0 suction power. Thus, the noise can be controlled to less than 60dB to ensure that it does not interfere with the user's daily routine.

Large Capacity of Water Tank Contains More

Don't worry about adding fresh water or pouring dirty water out, 1000ml freshwater tank plus a 500ml dirty water tank really helps you hassle-free.

W90

Ultra Clean in One Step

Key Features:

- Vacuum, mop & wash 3-in-1 efficient cleaning
- One button self-cleaning
- Bigger double tank system: 700ml CWT+500ml DWT
- 6*3000mAh battery provides 30min long runtime
- 5500Pa strong performance with 2 modes
- Smart voice assistant & light prompts
- 3-in-1 base design, storage + charging + cleaning
- User-friendly, cordless convenience

3-in-1 Vacuum, Mop & Wash

Allows you to vacuum, wet mop and wash floor in one go, suitable on multi-surfaces for your house deep clean that covers up to 200m².

One Button Quick Self-cleaning

At the touch of a button, the one-click self-cleaning cycle removes dirt, hair, and debris from the brush roller within 1 min for mess-free maintenance.

High-capacity Dual-tank Design

The dual-tank design keeps clean and dirty water separate for non-stop fresh water cleaning. A 700ml clean water tank provides ample water to clean floors longer and refill less.

Smart, Powerful and User-friendly

Voice prompts better update user cleaning status. It cleans longer with powerful suction power. The 3-in-1 dock supports storing, charging and self-cleaning, keeping everything organized and tidy.

G80

Powerful and Versatile for Your Entire House

Unique Side Brush Cleans Corners and Edges

G80 features a spinning side brush to gather dust and debris from corners and edges, maximizing the cleaning coverage and efficiency.

Up To 22Kpa Power Suction

Driven by the durable NIDEC brushless motor, G80 provides up to 22Kpa suction to quietly pick up dust and debris in your house.

4-stage Filtration with Cyclone System

The advanced filtration system isolates and captures different sizes of dust and debris by stages, improving filtration efficiency and expelling fresh air.

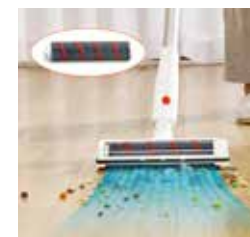

2 Ways to Store

G80 comes with a storage base to place the main body and accessories, and a wall mount to hang G80 on the wall. Both ways save space and keep the room tidy.

Key Features:

- 22kPa powerful suction
- 2500mAh battery provides 45min runtime
- 650mL dust cup
- LED display that shows device status
- Detachable battery
- 270° adjustable floor head with LED lights
- One-touch disposal and washable filter
- App & Voice control

Suitable for various floors

Deeply clean low carpets

Pick up debris on sofa

Handle quick cleanups

H11

More Flexible, Lighter and Powerful 360° Cleaning

Flexibility for Multi-Purpose Cleaning

90° vertical keeps cleaning the tight corners and edges simply; 180° flexible lie-down makes it easier to reach further underfurniture; 360° swivel makes cleaning effortlessly without any obstacles.

Innovative Dual Roller and Onni-direction Wheels

The motorized head with double rollers ensures deep removal of fine dust and particle on most hardfloors with higher efficiency. Glide 360° and effortless to maneuver.

Ultra-lightweight and Cordless Convenience

H11's main motor body is only 0.85Kg. ILIFE's most lightweight cordless vacuum will offer you an incredible cleaning experience with just one hand.

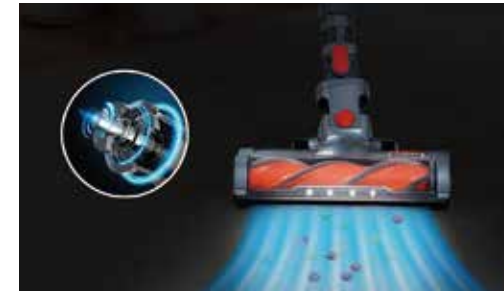

Powerful and Versatile Performance

Ultra-strong 16Kpa suction dedicates to picking up household waste such as dust, hair, and food scraps on multi-surface. Easily transformed into a handheld vacuum for uninterrupted cleaning.

H75

Ultra-flexible to Clean the Entire House

NIDEC Brushless Motor Offers Up To 22Kpa Suction

Driven by the durable NIDEC brushless motor, H75 provides up to 22Kpa suction to quietly pick up dust and debris in your house.

1.3L Extra-Large Dust Cup

With a dust cup that is twice the size of the common ones in the market, H75 reduces the frequency of trash disposal during a single cleaning.

Adjustable Suction Power

The superior brushless motor provides H75 with 10Kpa (Normal Mode) for up to 45mins runtime and 22Kpa (Max Mode) for deep cleaning.

Adjustable Extension Wand

H75 is flexible on length adjustment, fitting different heights for a perfect cleaning experience of each user. And the compact size makes it easy to store in a small cabinet.

G50

Versatile for Your Entire House

M50

Powerful | Portable | Maneuverable

No More Dust in Corners and Edges

The uniquely designed spinning side brush gathers dust and debris from corners and edges which other vacuums leave behind.

Swivel Floor Head with LED Light

Simply press the release button to empty the dustbin without touching the dust and trash.

Up to a 15Kpa Suction Power

Easily picks up dust, debris and pet hair around your house and car. Variable suction power for different cleaning tasks.

3 Ways to Charge

Charge with the charging dock, cord, or a USB Type-C cable directly.

Adjustable Suction Power

Driven by the powerful motor, G50 offers 7kpa suction (Normal Mode) for up to 35mins or 10kpa suction for when you need a deeper clean.

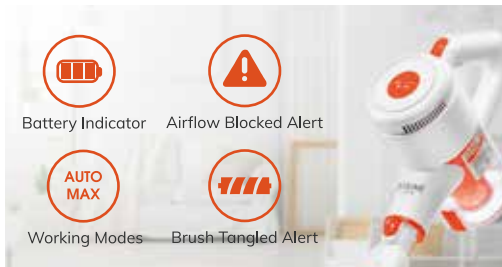

150ml Dustbin with One-touch Disposal

Equipped with a dustbin of 1.5 times the capacity of ordinary ones, M50 reduces your emptying frequency during cleaning.

Convenient to Store

With the M50 charging on the dock next to its accessories, everything is ready to be used when you need it.

Real-Time LED Display

The G50 will promptly stop and alert you on the LED display about the brush, the battery status and working modes at a glance.

Meet Various Cleaning Needs in Daily Life

Featured with the bed nozzle and 2-in-1 suction nozzle, M50 is the ideal solution for areas inside your car, and other surfaces you need to clean.

Commercial Robotic Vacuum Cleaner

ILIFE X1000 Commercial & Home AI robot vacuum cleaner

Working Like a Real Robot

ILIFE X1000 is the world's first commercial & home dual-purpose AI robot vacuum with 20000Pa hurricane-force suction power. Featured with smart DToF lidar navigation system, Powerful cleaning system and user-friendly operation system, It is born to solve the floor cleaning problems in both small&medium business and the big house scenarios.

Product Advantages

Smart Navigation System

Featured with the most advanced DToF LiDAR technology, 6-axis inertial sensor, and slam algorithm, X1000 can scan and create the 3D map quickly and precisely.

Powerful Cleaning system

Powered with 300W high-performance brushless motor, X1000 provides up to 20000Pa hurricane-force suction power, which is 300% more than others. With 3L large dustbin, X1000 can contain more debris and rubbish in one time without needing to clear the dust box frequently.

Long-Lasting Runtime

The superb energy is supported by 2*112.1Wh lithium battery packs. Each battery can work separately, releasing long-lasting power to work up to 200mins for only one charge.

User-friendly Operation System

X1000 supports to customize cleaning via APP. So when you are on the way home or work, just take one click, X1000 will begin to work in advance. It also equipped with one 5-inch touch screen, so you can operate X1000 easily via this screen easily.

Modular design, easy to maintain

X1000 adopts modular design, many of the product components including dust box, filter battery, roller brush etc. can be replaced easily. It also Supports customized portable charging stand, which can Charge multiple battery packs independently.

Key Features:

- Lidar Navigation and AI Recognition
- 20000Pa big suction
- Climb up to 25mm
- 3L big dustbin
- Auto-recharge
- Cover up to 1000m²
- Support app and LED Touch operation
